Summary of key changes – TASCC Standard Review 2021

This document provides a summary overview of the key changes made to the TASCC Standard 2018 for the next issue in place from February 2021.

- Scheme Rules updated
- Clauses which have been reviewed, updated or are new to the standard are highlighted in the clause column as 'Updated' or 'New'
- Throughout the standard clauses have been split into manageable requirements for ease of compliance and auditing
- Section titles renamed giving greater clarity of requirement
- Detailed 'Aim' for each section
- Record retention period consistent in all Codes of Practice
- Legislative Requirements split between 'Food' and 'Feed'
- Clauses removed if not applicable to Code of Practice
- Traceability moved to General Information as applicable to all Codes of Practice
- Renewable Energy Directive (RED) removed from standard
- Product Recall removed from Code of Practice for Storage
- Further Guidance added to all Codes of Practice

The standard will be presented as an on-line pdf document on the AIC website with active links to definitions, appendices and relevant external information websites. A limited quantity will be available printed with participants encouraged to use on screen or print as required.
